Update from Father Albanus

I hope all our parishioners are doing well. I hope the pandemic has not impacted too much on our people there. Hope the parishioners are cooperating with the new pastor(s).

I am doing well presently here. I had to battle for some time the rainy season with its attendant illnesses here. I needed to suffer from them to get strong against them in due course. Overall, the adjustment has not been very easy. The insecurity and killings have continued too. But God has been our strength here

I am presently posted to a parish here to get my "head" back to how things are done here before finally being posted to my place of longer stay. I don't know how long this interim appointment will last. But I am enjoying it. I happened to have stayed here before, during my junior apostolic year.

You are all in my thoughts and prayers. My regards to all our parishioners.

Fr Al.

Haiti needs our support

At 8:29 a.m. on Saturday, August 14, 2021, a powerful magnitude 7.2 earthquake struck Haiti's Tiburon Peninsula, about 150 kilometres west of the capital, Port-au-Prince. The force of the earthquake was felt across most of the country.

The damage has been enormous. By the evening of August 15, Haiti's national Civil Protection Agency had reported 1,300 dead, more than 5,700 injured, 13,600 houses destroyed and more than 30,250 families needing shelter. By that time, some 800,000 citizens were directly affected.

Development and Peace — **Caritas Canada's** partners, the *Institut de Technologie et d'Animation (ITECA)* and *Caritas Haiti* have sprung into action. In three stricken departments, Caritas Haiti is participating in various coordination activities under Haiti's national risk management plan, which has been activated to help the population. ITECA has sent relief trucks and assessment teams to the affected regions.

These are the same regions whose recovery you generously supported after Hurricane Matthew in 2016. Your donations had allowed ITECA to build 25 earthquake-resistant homes in the commune of Cavailon. Now, ITECA reports that 13 out of 14 of these houses that it inspected **have withstood the earthquake**. The remaining houses will be surveyed presently.

Today, our partners once again need your support to intensify their relief efforts and to develop such durable long-term recovery solutions. Continuing our Path to Normalcy at Our Lady of Victory Church

Over the past few weeks, you will have noticed changes as we inch towards normalcy.

Seating spaces are now **1 meter apart** instead of 2 meters, in compliance with the new protocol. This allows for an increase in **seating capacity to 78** which includes volunteers.

As a result of the new seating arrangements, parishioners **will no longer** be required to reserve a seat by advising the secretary and will be able to choose their own seating upon arrival. There will no longer be a plan allocating seating for attendees.

The spots to sit in the pews are still marked with **a white ribbon**. However, a **single person** can only choose to sit at a single ribbon and **a couple** can only choose to sit at a double ribbon. **Triples** would sit in the chairs for three persons.

Another notable change is we now have a Cantor. Linda Raby has graciously accepted the role of Cantor. **Under the new protocol, only Linda is permitted to sing.**

In the short-term, **Ushers and Greeters** will be available to provide information on the new seating arrangements and to ensure compliance with masking, sanitation and contact tracing requirements.
