### ***STO on demand***

“Good news! **STO on demand** is extended for a second year! I could not be more delighted that this flexible service has been extended! **STO on demand** was designed and developed to meet the needs identified by our community. By improving the quality of local mobility in our sectors, we make it easier for people to get to work, access local services and support our merchants, we encourage people to buy local, and we help revitalize our neighbourhoods and promote social integration.”

**Mr. Edmond Leclerc**, Buckingham district Municipal Councillor  
and member of the STO Board of Directors

**STO on demand**, as the name suggests, is a personalized public transportation service offered on demand. The purpose of this service is to complement the conventional bus service in the Buckingham and Masson-Angers sectors in order to better meet your local transportation needs within those sectors. You asked us for more transportation options, so we came up with one just for you.
